

REMARKS

This preliminary amendment is submitted to add Figure 11 to this application, which was inadvertently omitted from the application papers filed on March 30, 2004. Submitted herewith is the new Figure 11 along with a Letter Submitting New Drawing Sheet(s). Figure 11 illustrates one embodiment of a computer system upon which a processor controller of the present invention maybe implemented. As seen in Figure 11, the computer system is depicted by generic boxes that schematically represent well known features of a computer system. Each numbered box and the interconnection of such boxes in Figure 11 is thoroughly described at page 24, paragraph 82 - page 28, paragraph 81 of Applicant's specification as originally filed on March 30, 2004. Thus, the addition of Figure 11 is not believed to raise a question of new matter.

Accordingly, the present application including Figure 11 is believed to be in condition for examination.

Respectfully submitted,
